02 September 2019

To: All Councillors

As a Member or Substitute of the Planning Committee, please treat this as your summons to attend a meeting on Tuesday 10 September 2019 at 6.00pm in the Council Chamber, Town Hall, Matlock DE4 3NN.

Yours sincerely

Sandra Lamb
Head of Corporate Services

AGENDA

SITE VISITS: The Committee is advised a coach will leave the Town Hall, Matlock at 4.10pm prompt. A schedule detailing the sites to be visited is attached to the Agenda.

1. APOLOGIES/SUBSTITUTES

Please advise the Committee Team on 01629 761133 or e-mail committee@derbyshiredales.gov.uk of any apologies for absence and substitute arrangements.

2. APPROVAL OF THE MINUTES OF THE PREVIOUS MEETING

Planning Committee – 13 August 2019

3. INTERESTS

Councillors are required to declare the existence and nature of any interests they may have in subsequent agenda items in accordance with the District Council’s Code of Conduct. Those Interests are matters that relate to money or that which can be valued in money, affecting the Councillor, her/his partner, extended family and close friends. Interests that become apparent at a later stage in the proceedings may be declared at that time.
4. APPLICATIONS FOR DETERMINATION

Please note that for the following items, references to financial, legal and environmental considerations and equal opportunities and disability issues will be embodied within the text of the report, where applicable.

PUBLIC PARTICIPATION

To provide members of the public WHO HAVE GIVEN PRIOR NOTICE (by no later than 12 Noon on the working day prior to the meeting) with the opportunity to express views, ask questions or submit petitions relating to planning applications under consideration. Representations will be invited immediately before the relevant item of business/planning application is discussed. Details of the Council’s Scheme are reproduced overleaf. To register to speak on-line, please click here www.derbyshiredales.gov.uk/attendameeting. Alternatively email committee@derbyshiredales.gov.uk or telephone 01629 761133.

4.1 APPLICATION NO. 19/00807/FUL (Site Visit) 05 - 09
Proposed new access and parking area at 20 Snowfield View, Wirksworth.

4.2 APPLICATION NO. 19/00495/OUT 10 - 18
Proposed workshop and crane storage building at Steve Foster Crane Hire, Units 1 to 3 Derby Road, Doveridge.

4.3 APPLICATION NO. 19/00563/FUL 19 - 29
Change of use to equestrian, erection of stable block and formation of hardstanding (personal use) at Milverton, Main Street, Longford, Derbyshire, DE6 3DR

5. INFORMATION ON ACTIVE AND CLOSED ENFORCEMENT INVESTIGATIONS 30 - 52

6. APPEALS PROGRESS REPORT 53 - 71
To consider a status report on appeals made to the Planning Inspectorate.

Members of the Committee
Councillors Jason Atkin (Chairman), Richard Bright (Vice Chairman)
Robert Archer, Matthew Buckler, Sue Bull, Sue Burfoot, Tom Donnelly, Richard FitzHerbert, David Hughes, Stuart Lees, Joyce Pawley, Garry Purdy and Peter Slack.

Nominated Substitute Members
Jacqueline Allison, Martin Burfoot, Paul Cruise, Helen Froggatt, Chris Furness, Susan Hobson, Michele Morley, Tony Morley, Peter O’Brien, Mike Ratcliffe, Mark Salt, Steve Wain and Mark Wakeman.
PUBLIC PARTICIPATION

Members of the public may make a statement, petition or ask questions relating to planning applications or other agenda items in the non-exempt section of an agenda at meetings of the Planning Committee. The following procedure applies.

a) Public Participation will be limited to one hour per meeting, with the discretion to extend exercised by the Committee Chairman (in consultation) in advance of the meeting. On line information points will make that clear in advance of registration to speak.

b) Anyone wishing to make representations at a meeting must notify the Committee Section before Midday on the working day prior to the relevant meeting. At this time they will be asked to indicate to which item of business their representation relates, whether they are supporting or opposing the proposal and whether they are representing a town or parish council, a local resident or interested party.

c) Those who indicate that they wish to make representations will be advised of the time that they need to arrive at the meeting venue so that the Committee Clerk can organise the representations and explain the procedure.

d) Where more than 2 people are making similar representations, the Committee Administrator will seek to minimise duplication, for instance, by establishing if those present are willing to nominate a single spokesperson or otherwise co-operate in the presentation of their representations.

e) Representations will only be allowed in respect of applications or items which are scheduled for debate at the relevant Committee meeting,

f) Those making representations will be invited to do so in the following order, after the case officer has introduced any new information received following publication of the agenda and immediately before the relevant item of business is discussed. The following time limits will apply:

<table>
<thead>
<tr>
<th>Role</th>
<th>Time Limit</th>
</tr>
</thead>
<tbody>
<tr>
<td>Town and Parish Councils</td>
<td>3 minutes</td>
</tr>
<tr>
<td>Objectors</td>
<td>3 minutes</td>
</tr>
<tr>
<td>Ward Members</td>
<td>5 minutes</td>
</tr>
<tr>
<td>Supporters</td>
<td>3 minutes</td>
</tr>
<tr>
<td>Agent or Applicant</td>
<td>5 minutes</td>
</tr>
</tbody>
</table>

At the Chairman’s discretion, the time limits above may be reduced to keep within the limited one hour per meeting for Public Participation.

g) After the presentation it will be for the Chairman to decide whether any points need further elaboration or whether any questions which have been raised need to be dealt with by Officers

j) The relevant Committee Chairman shall exercise discretion during the meeting to rule out immediately any comments by participants that are not directed to genuine planning considerations.
SITE VISITS
Members will leave the Town Hall, Matlock at **4.10pm prompt** for the following site visits:

**Page No.**

**4.30pm** APPLICATION NO. 19/00807/FUL 05 - 09

20 SNOWFIELD VIEW, WIRKSWORTH.

At the request of Officers to allow Members to view the impact on the surrounding area.

**5.00pm** RETURN TO TOWN HALL, MATLOCK.

COMMITTEE SITE MEETING PROCEDURE
The purpose of the site meeting is to enable the Committee Members to appraise the application site. The site visit is not a public meeting. No new drawings, letters of representation or other documents may be introduced at the site meeting. The procedure will be as follows:

1. A coach carrying Members of the Committee and a Planning Officer will arrive at the site as close as possible to the given time and Members will alight (weather permitting)

2. A representative of the Town/Parish Council and the applicant (or representative can attend.

3. The Chairman will ascertain who is present and address them to explain the purpose of the meeting and sequence of events.

4. The Planning Officer will give the reason for the site visit and point out site features.

5. Those present will be allowed to point out site features.

6. Those present will be allowed to give factual responses to questions from Members on site features.

7. The site meeting will be made with all those attending remaining together as a single group at all times.

8. The Chairman will terminate the meeting and Members will depart.

9. All persons attending are requested to refrain from smoking during site visits.

**MATERIAL PLANNING ISSUES**

- Impact of the development on the character and appearance of this part of the settlement / countryside.
- Provision of off-street parking and highway safety.

**RECOMMENDATION**

Refusal.
20 Snowfield View, Wirksworth

Not Set
THE SITE AND SURROUNDINGS

The application property is a mid-terraced house, situated in a residential area at the southern end of Wirksworth (Millers Green). The houses front onto Snowfield View and their back gardens slope down to the lane (also called Millers Green) below.

The fronts of the houses are characterised as fronting onto a housing estate, whereas the Millers Green lane has more of a rural, country lane character. This rural character is reinforced by the enclosure formed by the rear boundary hedges and the grass embankment leading down to the pavement. This part of the narrow country lane is also characterised by having soft landscaping and no vehicular accesses leading onto it from the houses above – just narrow pedestrian access in between the hedges. It marks the boundary between the residential area and the open countryside.

DETAILS OF THE APPLICATION

The proposal is for the formation of a new vehicular access and parking area in the back garden, from the Millers Green lane which is a Classified Road. This will require the re-engineering of a large section of the back garden and the removal of the existing mature boundary hedge. It is proposed to have a tarmac drive, stone-faced retaining walls, additional planting to form a replacement hedge and a 5-bar timber gate.

PLANNING POLICY AND LEGISLATIVE FRAMEWORK

Adopted Derbyshire Dales Local Plan (2017)
S3: Development Within Defined Settlement Boundaries
PD1: Design and Place Making
HC19: Accessibility and Transport

National Planning Policy Framework (NPPF)
National Planning Practice Guide

RELEVANT PLANNING HISTORY

None.
CONSULTATION RESPONSES

Local Highway Authority
No objection, subject to Conditions and Footnotes.

Town Council
No comment.

REPRESENTATIONS RECEIVED

A representation of support has been received from a neighbour, stating that the proposal will help parking issues on Snowfield View.

OFFICER APPRAISAL

The main issues to consider are the impact that the formation of a vehicular access will have on highway safety and also the impact it has on the character and appearance of this section of a quiet country lane.

Provision of off-street parking and highway safety
Snowfield View, because of the era of its construction and the way it was laid out, experiences parking congestion and some consequent inconvenience to residents. In this context, it is recognised that the provision of in-curtilage parking at 20 Snowfield View will provide convenient parking for the dwelling and partly alleviate congestion of others in the process. It is of course important to ensure that new parking can be safely utilised and in this regard, the Local Highway Authority have raised no objection to this application, subject to Conditions and Footnotes.

Impact on the character of the area
Millers Green lane is characterised as a narrow, country lane. The Snowfield View housing development was designed to be off-set and elevated above the lane. It was designed with the main estate road looping round and being the single point of vehicular access, with the houses facing onto it. The row of houses that back onto the Millers Green lane have downward sloping back gardens, which are enclosed at the end by boundary hedges. Many of these have pedestrian access onto the Millers Green pavement, but none of them were designed to have vehicular access into their back gardens.

The roadside boundary hedge is considered to be an important component of this part of Millers Green, which contributes to the local character of the area, its sense of place and visual amenity of the street-scene. Its removal, simply to facilitate the formation of the vehicular access and parking area, is considered to have a harmful, urbanising effect that will be detrimental to the rural character and appearance of this part of the rural area, contrary to Local Plan Policies. Allowing one point of access would also be likely to encourage other properties to promote similar schemes, which would, cumulatively, further undermine the character and appearance of the area. Although the plans indicate additional planting, this will take time to establish and even then, it will by no means satisfactorily compensate for the big gap created.
In this case, the benefit to the individual is not considered to outweigh the harm caused to the wider local environment.

Policy PD1 of the Adopted Derbyshire Dales Local Plan (2017) requires development to be well designed and to respect the character, identity and context of townscapes and landscapes and to contribute positively to an area’s character, history and identity, particularly in relation to landscape features.

Conclusion
Whilst the congested nature of Snowfield View is noted and in-curtilage parking would directly benefit the applicant, this positive element of the scheme is outweighed by the removal of the roadside hedge and significant excavation of the back garden to accommodate the parking area, which would have a detrimental, urbanising effect that would be detrimental to the rural character and appearance of this part of Millers Green. It is recommended that the application be refused for this reason.

RECOMMENDATION

Planning Permission be refused for the following reason:

The development involves the removal of the roadside boundary hedge, which is an important component of this part of Millers Green and significant excavation of the back garden to accommodate a parking area. Such works would have a harmful, urbanising effect that would be detrimental to the rural character and appearance of this part of the Millers Green, contrary to Policies S3 and PD1 of the Adopted Derbyshire Dales Local Plan (2017).

NOTE TO APPLICANT

This Decision Notice relates to the following documents:
Drawing numbered 718/4839.2, received by the Council on 12th July 2019.

The Council provides a positive and proactive pre-application advice service. Unfortunately however, the advice was ignored in this case. The application was therefore considered as submitted and it was judged that there was no prospect of resolving the fundamental planning problems with it through negotiation. On this basis, the requirement to engage in a positive and proactive manner was considered to be best served by the Local Planning Authority issuing a Decision on the application at the earliest opportunity and thereby allowing the applicant to exercise their right to appeal.

**MATERIAL PLANNING ISSUES**

- Principle of development
- Impact on the character and appearance the area
- Impact on residential amenity
- Highway Matters
- Drainage Matters
- Ecological Matters

**RECOMMENDATION**

Approval
Steve Foster Crane Hire, Units 1 to 3, Derby Road

Not Set

Derbyshire Dales DC

Date: 30/08/2019

100019785
1. THE SITE AND SURROUNDINGS

1.1 The site is a commercial premises situated in the open countryside to the south of the A50 and to the north of Derby Road on the approach to Doveridge. It comprises a workshop/office building set within a yard area used for outside storage and car parking. The site is largely contained by perimeter planting with fields beyond. Contrary to the applicant’s statement, there are two dwellinghouses, Ashmore Cottage and the recently constructed Hacketts Pingle, some 120m to the west of the proposed development site.

2. DETAILS OF THE APPLICATION

2.1 Full planning permission is sought for the erection of an additional workshop/storage building in similar materials and livery to the existing building which comprises a brickwork plinth, dove grey sheeting to the walls and roof and with a dark blue roller shutter doors and trim to the building. The building is proposed to measure 40m wide by 25m deep and have an eaves height of 9m and a ridge height of some 11m.
2.2 It is proposed to be situated to the east of the existing building and yard on an area that has been cleared and turned over to hardstanding. The soil which has been stripped is proposed to be used to form a landscaped bund or mound to screen the car park from Derby Road and it is advised that there will be additional tree planting. The car parking area of the remaining land is proposed to be concrete to match that of the existing yard.

2.3 It is advised that the building is vital to the expansion of the crane business. A number of cranes are stored in the yard at peak times and the proposed building will allow more vehicles to be maintained under cover as well as providing a vital undercover area for the storage of incoming customer goods whilst waiting to be moved onward.

2.4 The applicant has submitted a Flood Risk Assessment and Drainage Strategy. This advises that the proposed building would be located within Flood Zone 1, with a low probability of flooding (less than 1 in a 1000 year chance of flooding) and is considered by the applicant’s consultant to be appropriate development in this case. The building is proposed to be set 150mm above the surrounding ground levels to protect against overland flow which could occur in an exceptional storm event. It is proposed that runoff drainage from the building would be directed to infiltration trenches and that surface water drainage from the yard would be drained by new gullies and pipework through an interceptor before connecting to the infiltration trenches.

3. PLANNING POLICY AND LEGISLATIVE FRAMEWORK

3.1 Adopted Derbyshire Dales Local Plan (2017)

S1 Sustainable Development Principles
S4 Development in the Countryside
S9 Rural Parishes Development Strategy
PD1 Design and Place Making
PD3 Biodiversity and the Natural Environment
PD5 Landscape Character
PD6 Trees, Hedgerows and Woodlands
PD8 Flood Risk Management and Water Quality
PD9 Pollution Control and Unstable Land
HC21 Car Parking Standards
EC1 New and Existing Employment Development

3.2 National Planning Policy Framework

3.3 National Planning Practice Guidance

4. RELEVANT PLANNING HISTORY

18/00224/FUL Creation of staff and visitor car park - Granted

11/00222/FUL Variation of Condition 3 of planning permission 99/10/0677 to allow for additional use of land, buildings and offices for general B8 and B1 uses and storage, maintenance and repair of equipment used by crane hire business and formation of new access road – Granted

99/10/0677 Erection of storage and office building with access apron and screening mound – Granted
0793/0481 Use of buildings for storage in addition to light industrial use (variation of condition 2 on WED/0187/0037) – Granted
0291/0139 Extension to workshop – Granted
0187/0037 Relaxation of planning conditions to allow light industrial use of buildings - Granted

5. CONSULTATION RESPONSES

Parish Council
5.1 - no comments received.

Environment Agency
5.2 - no formal comment as there are no environmental constraints associated with the site which fall within their remit.

Land Drainage Authority (DDC)
5.3 - technically a major planning application and therefore require the applicant to provide further information prior to being able to comment further:

- basic calculations of the greenfield/brownfield runoff and discharge rates.
- a quick storage estimate to show the required storage volume of surface water on site.
- calculations should include allowances for the current Environment Agency guidance for climate change.

Local Highway Authority (Derbyshire County Council)
5.4 - no objections subject to all use remaining ancillary to the current authorised activity on the site and that there is no impact on any existing parking/manoeuvring space and the applicant demonstrating that either additional parking is commensurate with the increase in floorspace or that current levels are sufficient.

Derbyshire Wildlife Trust
5.5 - no ecological information has been submitted with the application
- it is not clear from the proposed site plan what the nature of the existing habitats that would be affected is
- aerial view from online mapping suggests there is an area of trees/woodland that would be removed
- loss of mature trees would have the potential to impact on roosting bats and therefore recommend that an ecological appraisal is undertaken to record the existing habitats present on site and to assess the likelihood of impacts on protected species including but not limited to roosting bats
- the survey should be undertaken by a suitably competent ecologist and the report should follow good practice guidelines such as CIEEM Ecological Report Writing and British Standards BS:4202
- draw attention to the NPPF 2018 aim for all developments to achieve a net gain for biodiversity and would welcome consideration of opportunities for ecological enhancement, even if no direct mitigation/compensation is required.

6. REPRESENTATIONS RECEIVED

6.1 Two letters of representation have been received from a neighbour. A summary of the representations is outlined below:

- Hackettts Pingle not detailed on the application drawings
• further to discussing concerns with the applicant, have been assured that after screening process of the landscaped bund and further tree planting, together with the hidden siting of the new building, it will not spoil the landscape from Hacketts Pingle
• have also been assured that there will be no noise disturbance once completed as it is going to be used for a storage facility
• have no objection with these assurances in place.

7. OFFICER APPRAISAL

Principle of Development
7.1 This is an existing commercial premises which has a B1 (Light Industry) and B8 (Storage and Distribution) approved uses. Policy EC1 of the Adopted Derbyshire Dales Local Plan (2017) advises that the District Council will support proposals for expansion of existing business or industrial development in sustainable locations in order to enhance the economic base of the Plan area. This encourages the appropriate expansion of existing businesses requiring additional space to grow and supports business development in the countryside in accordance with Policy S4 of the Local Plan. To this end, whilst located within the open countryside, the site is reasonably sustainable being located on the fringe of Doveridge and close to the A50 to allow ease of access for the purposes of bringing vehicles and equipment to and from the site.

7.2 Policy S4 advises that planning permission will be granted for the extension of existing buildings for employment use provided it is appropriate to its location and preserves and/or enhances the character, appearance and local distinctiveness of the landscape.

Impact on the Character and Appearance of the Area
7.3 The proposed development has already resulted in the loss of some established landscaping as the applicant has prepared the site for the building. Nevertheless, the building is considered to be sited in reasonable context to the existing building and, with the use of similar materials and livery, will assimilate with the existing building. Whilst the building will provide space for some storage, which would be of benefit to the character and appearance of the area, it this is unlikely to address all the external storage currently in situ.

7.4 It is considered reasonable to attach a condition that earthworks and planting, as suggested by the applicant, are undertaken to soften views of the building and the site from Derby Road and the neighbouring residential properties. Whilst the applicant has detailed a bund and planting to the south of the building, it is considered reasonable to attach conditions to any planning permission that a cross section of the earth mound is provided, with details of the trees, (and their standard) and other planting proposed to the bund.

Impact on Residential Amenity
7.5 The building is proposed to be erected some 120m away from the neighbouring properties of Ashmore Cottage and Hacketts Pingle. It is considered unlikely that the use of the building will generate any noise nuisance beyond that which may be generated by the existing workshop which is in closer proximity. Whilst there will be a likely increase in activity at the site, given the premises would be expanded, it is not considered that this will lead to a significant degree of disturbance compared to that which may be created currently.

Highway Matters
7.6 The Local Highway Authority has raised no objection to the proposal subject to all use of the building remaining ancillary to the current authorised activity on the site. On this basis, it is considered that there is no impact on existing parking/manoeuvring space and the applicant is considered to have adequate parking provision to be commensurate with the increase of floorspace. However, it is considered that a condition be attached to any grant
of planning permission that a mezzanine floor is not provided, without the approval of the Local Planning Authority, to ensure the useable floorspace of the building does not increase to an extent that may have implications on parking provision for staff/visitors if provided.

**Drainage Matters**

7.7  The applicant has submitted a Flood Risk Assessment and Drainage Strategy for the site and, at the request of the Local Lead Flood Authority (LLFA), additional information to address matters of run-off rates, surface water storage and allowances for climate change. At the time of preparing the Officer’s report, the comments of the LLFA had not been received on the additional information but it is not considered by Officers that drainage cannot be adequately addressed. To this end, it is expected that the comments of the LLFA will be received prior to the Planning Committee Meeting and Members will be updated.

**Ecological Matters**

7.8  Derbyshire Wildlife Trust has considered the application and raise some concerns with the development. No ecological information has been submitted with the application and it is unclear from the proposed site plan what the nature of the existing habitats that would be affected is. DWT has noted that, having considered an aerial view from online mapping, there is an area of trees/woodland that would be removed. DWT advise that the loss of mature trees has the potential to impact on roosting bats and it is therefore recommend that an ecological appraisal is undertaken to record the existing habitats present on site and assess the likelihood of impacts on protected species including but not limited to roosting bats. However, the applicant has already undertaken such felling in order to create the site for building upon.

7.9  DWT draws attention to the aim of the National Planning Policy Framework (NPPF) for all developments to achieve a net gain for biodiversity and would welcome consideration of opportunities for ecological enhancement even if no direct mitigation/compensation is required. Given that mature landscaping has been removed to facilitate for the building, it is considered reasonable to attach a condition requiring details of replacement landscaping and other ecological enhancements such as bird nesting boxes and bat roosts to be provided by way of compensatory/enhancement measures.

**Conclusion**

7.10  Whilst the proposal is for a relatively large building in the open countryside, this is nevertheless set in the context of an existing, large building and the storage associated with the crane hire business. To this extent, given the existing and proposed screening of the building, it is considered that the harm of the proposed a building in the landscape will be mitigated and that this harm is outweighed by the benefits of the development to the business and in supporting the local economy. As such, it is recommended that planning permission be granted subject to no objections being received from the LLFA and subject to conditions.

8.  **RECOMMENDATION**

That subject to there being no objections raised by the Local Lead Flood Authority (LLFA), that delegated permission be granted to Officers to grant planning permission subject to the following conditions and any conditions requested by the (LLFA):

1. Condition ST02A  Time Limit on Full

Reason:
Reason ST02A
2. Notwithstanding the details on the approved drawings, within the first planting season following the erection of the building commencing, the landscaping of the site shall be provided in accordance with cross section details of the mound/bund and its planting which shall also be first submitted to and approved in writing by the Local Planning Authority. The works shall thereafter be carried out in accordance with the approved landscaping scheme.

Reason: To ensure the mitigation of the visual impact of the building in the open countryside to comply with Policies S1, S4, PD1 and EC1 of the Adopted Derbyshire Dales Local Plan (2017).

3. Condition LA13A Landscaping to be Carried Out and Maintained

Reason: Reason LA1A .... Policies S1, S4, PD1 and EC1 of the Adopted Derbyshire Dales Local Plan (2017).

4. Before the building is first brought into use, details of ecological enhancement measures for birds and bats shall be submitted to and approved in writing by the Local Planning Authority. Should boxes be incorporated, positions, specification and numbers should be provided. Such approved measures will be implemented in full prior to the occupation of the dwellinghouse and thereafter retained as such.

Reason: To offset the loss of potential habitat, and to enhance the habitat, for protected species and other wildlife to comply with Policy PD3 of the Adopted Derbyshire Dales Local Plan (2017).

5. Condition PD18 No Mezzanine Floor

Reason: To safeguard the amenities of neighbouring residential properties through the potential for increased activity and to ensure the development does not lead to the requirement for further parking provision, without being fully assessed, in the interests of highway safety and to comply with Policies S1, S4, PD1, HC21 and EC1 of the Adopted Derbyshire Dales Local Plan (2017).

6. The building hereby approved shall remain ancillary to the operations of the site and shall not be sold or let for separate business purposes unless otherwise agreed in writing by the Local Planning Authority.

Reason: To safeguard the amenities of neighbouring residential properties through the potential for increased activity and to ensure the development does not lead to the requirement for further parking provision, without being fully assessed, in the interests of highway safety and to comply with Policies S1, S4, PD1, HC21 and EC1 of the Adopted Derbyshire Dales Local Plan (2017).

NOTES TO APPLICANT

1. The Town and Country Planning (Fees for Applications, Deemed Applications and Site Visits) (England) Regulations 2012 as amended stipulate that a fee will henceforth be payable where a written request is received in accordance with Article 27 of the
Development Management Procedure Order 2015 for the discharge of conditions attached to any planning permission. Where written confirmation is required that one or more conditions imposed on the same permission have been complied with, the fee chargeable by the Authority is £116 per request. The fee must be paid when the request is made and cannot be required retrospectively.

2. The Local Planning Authority considered the application as submitted to be acceptable. On this basis, there was no need to engage with the applicant in a positive and proactive manner to resolve any planning problems and permission was granted without negotiation.

3. This decision notice relates to the following documents:

Design and Access Statement received on 1st July 2019
Drawing Nos. 332/PD/01, 01, 02 Rev. A and 03 Rev. A received on 1st July 2019
Flood Risk Assessment and Drainage Strategy received on 1st July 2019.

MATERIAL PLANNING ISSUES

- Principle of development
- Impact on the amenity of neighbouring occupants.
- Impact on the Longford Conservation Area.
- Impact on the surrounding trees and landscape.

RECOMMENDATION

Approval with conditions
1. INTRODUCTION

1.1 This application was presented to Planning Committee on 13th August 2019, members resolved to defer the application to see if the impact of the development on the amenity of neighbouring occupants could be lessened, by means of relocation or re-design. The item is represented, incorporating an additional supporting statement. The proposal has also been reduced in scale following the submission of amended plans. The location of the proposed stables remains as previously submitted.

2. THE SITE AND SURROUNDINGS

2.1 The site is located on the western side of Main Street in the centre of Longford and within the Longford Conservation Area. The application relates to a parcel of land to the rear of Milverton, which has been formerly used as an orchard. The site will be surrounded by residential properties to the east and south following the completion of an ongoing barn conversion. To the west of the site is open countryside.

3. DETAILS OF THE APPLICATION

3.1 Planning permission is sought for the change of use of the land to equestrian and for the construction of a stable block with associated hardstanding. The stable block is proposed to be for private use only and would be constructed in an ‘L’ shape with a height of 2.9m. The stables would be constructed using timber and the land around would be covered in a permeable stone hardstanding. Access to the proposed stable block will be gained along an
existing loose gravel driveway to the south of Milverton, this driveway will also serve the barn conversion which is currently under construction.

3.2 Following the deferral of this application at the Planning Committee on 13th August 2019 the applicants have submitted a further statement in support of the application and to address some concerns raised by members, a summary of which is as follows:

**Contamination of land, noise and odour.**
- The land could be utilised for grazing cows, pigs, sheep etc which would result in uncontrolled faeces and urine around the site. Livestock would also produce more odour and noise than horses.
- The stables would allow for the controlled management of waste due to the daily mucking out. The horses would never be loose in the area outside the stables and would instead be led to/from the adjacent field.
- The stables will largely be empty in the spring/summer months with the horses being in the adjacent field. Therefore there would be no harm with regard to flies and odour etc., particularly when the neighbouring occupants are most likely to be using the gardens.
- If the stables were relocated into the adjacent field, during the spring summer months when the horses are outside, they would be in closer proximity to the neighbouring occupant’s garden.

**Permeable Stone Area**
- The permeable stone area would never be used for the exercising of the horses as it is dangerous. It is required for access to the fields, parking of the horsebox, parking of two cars and access for the removal of the muck trailer.
- The permeable stone has been chosen to allow better drainage. There were concerns with regard to cleaning faeces off the stone, however as the stone would only be used to lead the horses to the field this is unlikely and could be fully removed with a shovel.
- The horses will never be loose on the permeable stone area which has been reduced in size following comments at the planning committee.

**Lighting**
- Some lighting is necessary for safe working practices. Bulkhead lights would be installed under the roof canopy – 240volts at 60/100 watts and ip44 rated.

**Vehicle Movements**
- There will be limited vehicle movements in relation to the horses and stables. One horsebox would be used approximately once a week during October-March.
- The horsebox may be used if veterinary treatment is required.
- The farrier will shoe the horses every 4-6 weeks and a vet will visit every 6 months.
- A local farmer would take the muck trailer to be emptied off site.
- The relocation of the stables would require a longer driveway which would result in increased noise nuisance.

**Stabling of the Horses**
- From April/May to September/October the horses are turned out to grass 24/7. The horses are stabled overnight throughout the rest of the year.
- Whilst the horses are stabled overnight they are:
  - Fed and skipped out in the mornings
  - Turned out to graze for the day
  - Stables mucked out once a day
  - Ridden 5/6 days a week
  - Brought in from the field before dark.
  - Fed and skipped out early evening.
- All stable floors will have rubber matting which dampens the sound of hooves on the floor. Rockwool sound insulation is also proposed.
3.3 Amended plans have also been received following the previous Planning Committee. The proposed stables are now smaller in scale as one loosebox has been removed. The area of permeable stone hard surfacing has also been reduced.

4. PLANNING POLICY AND LEGISLATIVE FRAMEWORK

1. Adopted Derbyshire Dales Local Plan (2017):
   - Policy S4: Development in the Countryside
   - Policy PD1: Design and Place Making
   - Policy PD2: Protecting the Historic Environment
   - Policy PD5: Landscape Character
   - Policy PD6: Trees, Hedgerows and Woodlands
   - Policy PD9: Pollution and Unstable Land

   - National Planning Practice Guidance

5. RELEVANT PLANNING HISTORY:

   15/00524/FUL  Change of use and conversion of barn to dwelling  REF  6/09/2015

   16/00679/FUL  Change of use and conversion of barn to dwelling  PERC  6/12/2016

   19/00225/FUL  Change of use to equestrian, erection of stable block and installation of hard standing for personal use  REF  3/04/2019

19/00225/FUL - The proposed stable block would create an unacceptable level of noise and odour in close proximity to existing, adjacent residential properties to the detriment of the residential amenity of the occupants of those properties. The proposal would not therefore have a satisfactory relationship with adjacent development and would conflict with policy PD1 of the Adopted Derbyshire Dales Local Plan (2017).

6. CONSULTATION RESPONSES

   Longford Parish Council

6.1 Longford Parish Council strongly object to this application. The proposed location for this development is still very close to residential properties and the impact of noise, lighting, run off and smell would be unacceptable, especially when there is ample room at the rear of the field for the development to be sited.

   Although the amended plans have re-aligned the development, we think this will make matters worse, channelling the smell, noise etc. towards the residential properties, especially Brimar.

   Trees in a conservation area would also be felled to accommodate the proposed site.

   Design and Conservation Officer (Derbyshire Dales)

6.2 The Longford Conservation Area Appraisal (2011) notes and recognises that little back land development has taken place within the Conservation Area. Specifically, this relates to residential dwellings. The proposal, therefore, for an equestrian type building of a relatively low and ephemeral character and appearance is likely to be deemed acceptable on this back land site associated with the cottage. Views of the proposed site from the public realm within the Conservation Area are limited, mainly due to existing buildings and
existing planting. Additional planting should be considered to enclose the new building within its proposed context.

It is considered that the proposal is unlikely to be harmful to the character and appearance of the Longford Conservation Area.

Conservation Advisory Forum

6.3 CAF discussed the proposed change in shape and form of the new stable block. In its proposed form it appeared slightly smaller in footprint to that previously proposed and its introspective form would allow all the external walls to be blank. CAF considered that the timber walling should be stained/painted an appropriate recessive colour. It was noted the roof would be black. CAF considered that the proposal would not be harmful to the character and appearance of this part of the Conservation Area.

Environmental Health (Derbyshire Dales)

6.4 Comments from 31/05/2019: - as per previous application. Concerns about the proximity of this development to the neighbouring dwellings. A more suitable location or the re-orientation of the stables to reduce the impact would be more desirable. This would then minimise the impact of noise, flies and odour on neighbouring dwellings.

Comments from 02/07/2019: I have been out to Milverton, and from my visit have concluded that any stables should be pushed up as close to the dividing fence line as possible. I think a condition requiring the manures and wastes to be adequately managed would be helpful going forward. Soundproofing of the stables was also discussed and insulated panels were to be investigated and used. In addition, restoring the hedge between the garden and orchard area was discussed and would be desirable.

7. REPRESENTATIONS RECEIVED

7.1 The Local Planning Authority have received objections to the proposed development from two neighbouring properties and one representation in support. A summary of the representations follows:

Supporting:
• Having looked at the proposed plans, and discussing muck removal, drainage and light pollution, I have no objection to the stables location in relation to my property.

In objection:
• The application does not resolve objections raised with the previous application.
• Why is the applicant applying for change of use of the orchard, there is other available land not bordering residential land.
• The height of the building is 3 metres high, whereas the boundary hedge is 5 feet. The proposal would impact on neighbouring occupants day to day life.
• The development would result in smells, noise, run-off and disturbance and would increase the vermin population.
• The manure trailer is situated quite a distance from the stables which may result in the applicant not using it correctly.
• Rainwater run-off may result in flooding of neighbouring properties.
• The application is largely the same as the previous application.
• A protected tree has been removed and work began on removing a second protected tree.
• The removal of the trees and the noise of the development would be detrimental to the wildlife in the area.
• Unauthorised development has occurred on the land.
• The stables would result in overshadowing and loss of light to neighbouring properties due to the difference in land levels.
• The shape of the stables would funnel noise and odour toward neighbouring residential properties.
• Neighbouring properties would be unable to have doors/windows open due to the odour from the development.
• The proposed stables would introduce vermin/flies etc. which attract potential disease.
• There is up to 3 acres of available land and is no need to build the stables in such close proximity to the residential properties.
• The scale on the proposed block plan is incorrect and doesn’t show the true size of the stables, and hardstanding or the proximity of neighbouring properties.
• How can faeces be removed from the loose permeable surface.
• The proposed lighting would cause unnecessary nuisance and light pollution.
• The stables would appear overbearing from neighbouring properties.
• The proposal would not enhance the area or preserve the wildlife.
• The loading and unloading of horses from the horse lorry would be an unnecessary disturbance to neighbouring occupants.
• The proposed planting would not sufficiently screen the proposed building.
• Disagree with the conservation officers description of the stables as ephemeral in character and appearance – the stables will last a lifetime.
• The outlook from neighbouring properties would be lost.
• Following the amended plans received – all objections remain.

8. OFFICER APPRAISAL

The following material planning issues are relevant to this application:

− Principle of development
− Impact on the Longford Conservation Area.
− Impact on the surrounding trees and landscape.
− Impact on the amenity of neighbouring occupants.

8.1 Principle of Development

During the assessment of the previous application (19/00225/FUL) it was considered that the principle of the development was acceptable. Policy S4 of the Adopted Derbyshire Dales Local Plan (2017) states that planning permission will be granted in the countryside where the development “comprises equestrian development where it does not have an adverse impact upon the character of the area”. Whilst concerns have been raised by neighbouring residents, the stables would be located the rear of the dwellings, immediately adjacent to the agricultural land. A former barn which is currently undergoing a conversion to a dwelling is located immediately to the south of the site, whilst no longer in agricultural use it would retain the agricultural character of this area to the rear of the dwelling. It is not considered that the introduction of a stable or the change of use of the land to equestrian use would harm this character. The proposal is considered to comply with policy S4 of the Adopted Derbyshire Dales Local Plan (2017) in this regard.

8.2 Impact on the Longford Conservation Area.

Whilst the development site is located within the Longford Conservation Area it would not be prominent in public views due to the screening provided by the existing dwellings along the eastern side of Main Street. The 2.9m height of the building is also relatively modest and the use of timber to construct the stables would allow the stables to appear as an ephemeral building. Although the shape/form of the building has been altered since the previous application, both the Derbyshire Dales District Council Conservation Officer and the Conservation Advisory Forum have again concluded that the proposal would not result in an adverse impact to the character and appearance of this part of the Longford
Conservation Area and the proposal is therefore considered to comply with policy PD2 of the Adopted Derbyshire Dales Local Plan 2017 in this regard.

8.3 Impact on the surrounding trees and landscape

Whilst the proposal – particularly the creation of the hardstanding would have an impact on the landscape, it is considered that as the proposal is contained within the building line of the properties along the eastern side of Main Street it would not encroach into the open countryside and would not cause an unacceptable level of harm to the character and appearance of the surrounding landscape.

Concerns have been raised by local residents in relation to the removal of a tree and the proposed removal of further trees to accommodate the proposal. Although no formal comments have been received from the Derbyshire Dales District Council Trees and Landscape Officer, it was suggested as part of the previous application that subject to a condition securing an appropriate landscaping scheme, the character of the area and the wildlife on site could be protected. The impact on the trees and landscape surrounding the development is not considered to be sufficient to warrant the refusal of planning permission in this case.

8.4 Impact on amenity of neighbouring occupants.

A number of concerns have been raised by local residents in relation to the odour, noise, light and vermin generated by the proposed development. Policy PD1 of the Adopted Derbyshire Dales Local Plan (2017) requires development to “achieve a satisfactory relationship to adjacent development and not cause unacceptable effects by reason of visual intrusion, overlooking, shadowing, overbearing effect, noise, light pollution, or other adverse impacts on local character and amenity”. Policy PD9 also seeks to “protect people and the environment from unsafe, unhealthy and polluted environments”.

The previous application was refused due to the harmful impact of noise and odours generated as a result of the proposed stable block on the amenity of neighbouring occupants. During the consideration of this application the Environmental Health Officer (Derbyshire Dales) carried out a site visit, following which it was concluded that subject to conditions securing appropriate waste management, soundproofing and vermin control, the impact on the neighbouring residents could be reduced to a point where it would be unjustified to refuse planning permission on this ground. Amended plans have been received during the application which have moved the stable block approximately 5m further from the boundary with Brimar. Whilst this slight relocation would not in itself sufficiently reduce the impact on the neighbouring amenity, in combination with the above conditions, it is considered to reduce the impact to a satisfactory level in accordance with policy PD1 and PD9 of the Adopted Derbyshire Dales Local Plan (2017).

Following the construction of the proposed stables, the use of the existing gravel driveway may be increased and may create additional noise and potential nuisance to the neighbouring property to the south and the occupants of the barn conversion once complete. In this case however, the driveway is currently used by the occupants of Milverton and has small parking area at its western end, the increase in the amount of vehicular activity along the driveway is unlikely to be significant as a result of the stables.

Whilst there have also been representations received from neighbouring residents which raised concern with the height of the building and the varying land levels resulting in a significant overbearing effect and overshadowing, it is considered that the 3m height and almost 20m distance between the corner of the proposed stables and the boundary with Brimar, this is unlikely to result in a significant adverse impact and would not warrant rejecting the scheme.
Following deferral of the application by members at the previous Planning Committee the applicant has provided further clarification on how the stables would be used and how concerns relating the amenity of neighbouring occupants would be addressed. Firstly stating that for 6 months of the year, the horses would be turned out to the adjacent field 24/7 and would only be kept in the stables overnight throughout the winter months. The applicant has stated that the horses would be mucked out daily when the horses are in the stables reducing the potential impact of odours and flies. It is also outlined that the number of vehicle movements would be limited to a horsebox once per week from October – March, a farrier to shoes the horses once every 4-6 weeks, a vet once every six months and by a local farmer emptying the muck trailer. It is also proposed to utilise rubber matting to the floor of the stables and Rockwool sound insulation to reduce and noise created by the horses whilst the stables are occupied.

8.5 Conclusion:

The previous planning application for the change of use of the land, erection of stable block and formation of hardstanding was refused due to the impact of the odour and noise on the amenity of occupants of neighbouring residential properties. Following the revised comments received from the Environmental Health Officer stating that these concerns can be overcome through the amended plans which have been received and a series of planning conditions, the Local Planning Authority consider that the planning balance has been tipped in favour of this scheme. The applicant has amended the scale of the proposed building and submitted further details on the intended use of the stables in order to address the concerns raised by Members and neighbouring occupants at the previous Planning Committee which led to the application being deferred. The Local Planning Authority consider that subject to appropriate conditions the proposed stables can achieve a satisfactory relationship with surrounding developments in accordance with policy PD1 and PD9 of the Adopted Derbyshire Dales Local Plan (2017). A recommendation of approval is made on this basis.

9. RECOMMENDATION

That planning permission be granted subject to the following conditions:

1. The development hereby permitted must be begun before the expiration of three years from the date of this permission.

   Reason:

   This is a statutory period which is specified in Section 91 of the Town and Country Planning Act 1990.

2. This permission relates solely to the application as amended by the revised plan(s) received by the Local Planning Authority on the 09/07/2019 numbered P2v2 (Rev 3), P3v2 (Rev 1), P4v2 (Rev 1).

   Reason:

   For the avoidance of doubt.

3. A scheme of hard and soft landscaping shall be submitted to and approved in writing by the Local Planning Authority within 56 days of the commencement of development, the details of which shall include :-
a) Indications of all existing trees, hedgerows and other vegetation on the land;
b) All vegetation to be retained including details of the canopy spread of all trees and hedgerows within or overhanging the site, in relation to the proposed buildings, roads, and other works;
c) Measures for the protection of retained vegetation during the course of development;
d) All plant species, planting sizes, planting densities, the number of each species to be planted and plant protection;
e) Car park layouts;
f) Other vehicle and pedestrian access and circulation areas;
g) Hard surfacing materials;

Reason:
To ensure a satisfactory landscaped setting for the development and the protection of existing important landscape features in accordance with policy PD1, PD5 and PD6 of the Adopted Derbyshire Dales Local Plan (2017).

4. All soft landscaping comprised in the approved details of landscaping shall be carried out in the first planting and seeding season following the first occupation of the building(s) or the completion of the development whichever is the sooner; All shrubs, trees and hedge planting shall be maintained free from weeds and shall be protected from damage by vermin and stock. Any trees or plants which, within a period of five years, die, are removed, or become seriously damaged or diseased shall be replaced in the next planting season with others of a similar size and species, unless otherwise agreed in writing by the local planning authority. All hard landscaping shall also be carried out in accordance with the approved details prior to the occupation of any part of the development or in accordance with a programme to be agreed in writing with the Local Planning Authority.

Reason:
To ensure a satisfactory standard of landscaping in the interests of amenity in accordance with policy PD1, PD5 and PD6 of the Adopted Derbyshire Dales Local Plan (2017).

5. Details of sound insulation to be installed within the building hereby approved shall be submitted to and approved in writing prior to the building being brought into use. The approved insulation shall be installed and retained within the building unless otherwise agreed in writing by the Local Planning Authority.

Reason:
To minimise the impact of noise emitted from the building on neighbouring residential properties in accordance with policy PD1 of the Adopted Derbyshire Dales Local Plan (2017).

6. A manure management plan shall be submitted to and approved in writing by the Local Planning Authority prior to the building hereby approved being brought into use. The manure management plan shall then be carried out in accordance with the approved details.

Reason:
In the interests of preserving the amenity of neighbouring occupants in accordance with policy PD1 of the Adopted Derbyshire Dales Local Plan (2017).
10. NOTES TO APPLICANT:

The Local Planning Authority prior to and during the consideration of the application engaged in a positive and proactive dialogue with the applicant which resulted in the submission of a scheme that overcame initial concerns relating to the impact of the proposed development on the amenity of neighbouring occupants.

The Town and Country Planning (Fees for Applications, Deemed Applications and Site Visits) (England) Regulations 2012 as amended stipulate that a fee will henceforth be payable where a written request is received in accordance with Article 27 of the Development Management Procedure Order 2015 for the discharge of conditions attached to any planning permission. Where written confirmation is required that one or more conditions imposed on the same permission have been complied with, the fee chargeable by the Authority is £34 per householder request and £116 per request in any other case. The fee must be paid when the request is made and cannot be required retrospectively.

**OFFICER RECOMMENDATION:**

That the report be noted.
Appeal Decision

Site visit made on 17 July 2019

by Mr M Brooker  DipTP MRTPI
an Inspector appointed by the Secretary of State

Decision date: 23 July 2019

Appeal Ref: APP/P1045/W/18/3216375
Round Oak Farm, Slade Lane, Mercaston DE6 3DZ

• The appeal is made under section 78 of the Town and Country Planning Act 1990 against a refusal to grant planning permission.
• The appeal is made by Mr & Mrs A Hatton against the decision of Derbyshire Dales District Council.
• The application Ref 18/00801/FUL, dated 20 July 2018, was refused by notice dated 15 October 2018.
• The development proposed is the retention of a mobile home

Decision

1. The appeal is allowed and planning permission is granted for the retention of a mobile home at Round Oak Farm, Slade Lane, Mercaston DE6 3DZ, in accordance with the terms of Application Ref: 18/00801/FUL dated 20 July 2018 and subject to the conditions set out in the schedule attached to this Decision.

Background and Main Issue

2. Planning permission is sought for the retention, for a further two years, of a mobile home that is already in place on the site. I have therefore determined the appeal on that basis.

3. The site has an extensive planning history relating to the establishment of an equestrian business. The Council details that consent¹ for the siting of a mobile home for a period of 3 years, was first granted in March 2010. The consent was subsequently renewed², following a number of applications, in August 2014 for a further period of 3 years. Applications³ for the erection of stables and agricultural storage buildings were also granted during this time. I have been provided with very little evidence with regards these consents, the policies and circumstances that applied at the time that the applications were determined.

4. The main issue in the appeal is whether or not the retention of the mobile home for a further period of two years is justified by the business operating from the site for the purposes of the development plan.

Reasons

5. Policies S1, S4 and HC13 of the Derbyshire Dales Local Plan 2017 (LP) relate to the provision of housing, seeking to focus development to existing settlements

¹ 09/00687/TEMP 5 March 2010
² 14/00031/TEMP 27 August 2014
³ 10/00532/AGR 22 September 2010; 11/00178/FUL 7 July 2011; and, 12/00099/FUL 4 April 2012.
and separately, to meet the needs of agricultural, forestry and rural-based workers in the countryside where development would not otherwise be permitted.

6. Policy HC13 (c) relates, in part, to the provision of temporary dwellings to allow time for the business to develop and states, among other matters, that a temporary dwelling will only be permitted for a maximum period of 3 years.

7. As a result of earlier planning consents and periods of time when the mobile home has been retained on site without the appropriate consents, the maximum period of 3 years has already been exceeded to a significant degree.

8. The appellants have stated that the delay in establishing and growing the business was as a result of an illness suffered by one of the appellants and I give this matter some weight. However, I have been provided with very little information as to how this affected the day to day operation of the business or may affect the business in the future.

9. With regards other criteria set out by policy HC13, there is a functional need for a rural worker to reside on site to support the needs of the related enterprise and this is not, in principle, at dispute between the parties. The Council has however raised concern that the business is not financially sound and that there is no clear prospect of it becoming so.

10. The appellant has submitted some limited evidence with regards the financial performance of the business. A single page extract of the accounts of the business shows that a small profit was realised in the financial years ending April 2016 and April 2017. Furthermore, a modest directors’ salary is recorded as being taken in 2017.

11. No substantive details of the most recent trading have been submitted, the appellant has however submitted financial forecasts for the period 2018-2021 showing a steady increase in the profitability of the business. It is not clear what this forecast is based on, consequently the weight given to this evidence is limited.

12. The enterprise has operated for around ten years and based on the evidence before me, it has achieved a profit in the last two years for which details have been provided and financial forecasts suggest that this will continue and grow. This indicates that the enterprise has been, and will continue to be, viable and profitable.

13. I have carefully considered all of the evidence before me, taking account of all of the concerns raised with particular regards to the significant length of time that the mobile home has already been on site. This is a very finely balanced decision, but I conclude that the retention of the mobile home for a further period of two years is justified by the business operating from the site for the purposes of the development plan, specifically with regards policies S1, S4 and HC13 of the LP.

Other Matters

14. An objector to the application and the Council have stated that the appellant’s have disposed of some grazing land. The appellants state, and the Council acknowledges, that some additional land for grazing is currently rented and I
have no substantive evidence before me to suggest that there is not sufficient grazing land available to meet the current or future needs of the business.

Conditions

15. I have had regard to the suggested conditions attached to the Council’s Appeal Statement and I have included a condition limiting the retention of the mobile home on the site for a further two years, requiring the removal and reinstatement of the land thereafter in order to protect the character and appearance of the open countryside.

Conclusion

16. For the reasons given above I conclude that the appeal should be allowed subject to conditions.

Mark Brooker

INSPECTOR

SCHEDULE OF CONDITIONS

1. This permission is for a temporary period of two years from the date of this decision immediately after which the mobile home shall be removed and the land reinstated.

END OF SCHEDULE
**Appeal Decision**

Site visit made on 8 July 2019

by J Hunter BA (Hons) Msc MRTPI

an Inspector appointed by the Secretary of State

Decision date: 15th August 2019

Appeal Ref: APP/P1045/W/19/3227186

Hulland House, Unnamed section of C3 from Main Road to Carr Farm Hall access, Hulland Ward DE6 3EE

- The appeal is made under section 78 of the Town and Country Planning Act 1990 against a refusal to grant planning permission.
- The appeal is made by Mr Zwolinski and Ms Fox against the decision of Derbyshire Dales District Council.
- The application Ref 18/00675/FUL, dated 20 June 2018, was refused by notice dated 30 October 2018.
- The development proposed is described as the construction of an access road and areas of hardstanding, services and other works in association with a certified caravan site.

**Decision**

1. The appeal is allowed and planning permission is granted for the construction of an access road and areas of hardstanding, services and other works in association with a certified caravan site at Hulland House, Unnamed section of C3 from Main Road to Carr Farm Hall access, Hulland Ward DE6 3EE in accordance with the terms of the application Ref: 18/00675/FUL, dated 20 June 2018 and subject to the conditions set out in the attached schedule.

**Procedural Matters**

2. The description of development in the planning application form is the ‘Construction of an access road and areas of hardstanding, services and other works in association with a certified caravan site’. The Council say that it is inferred that this means that the planning application was for change of use (COU) of the land to a caravan site. At my request, the appellants have confirmed that the planning application was only for the proposed access, hardstanding, services and other works.

3. The appellants take the view, that they do not need planning permission to use the land as a caravan site as they have a certificate of lawful development (Ref 18/000529/CLPUD) dated 29 May 2018 for use of the land for the siting of five caravans. The Council disputes that the land can lawfully be used as a caravan site and contend that this is because no caravan club certificate has been issued.

4. This section 78 appeal is not, though, the correct mechanism for determining whether or not the site can be lawfully used as a caravan site without the need for planning permission. Given that the appellants have confirmed that they are not applying for planning permission for the use of the site as a caravan
site, I have therefore determined this appeal solely on the basis that the proposal relates to a proposed access, hardstanding, services and other works in accordance with the description of development set out on the planning application form.

5. The appellants submitted Drawing no. 01 Site Plans dated March 2019 with the appeal submission that was not before the Council at the time of its decision. As the Council and interested parties have, though, had the opportunity to comment on this document during the appeal process, I have considered it in my decision. Accordingly, no party has been prejudiced.

Main Issue

6. Given the above, and notwithstanding the Council’s decision to deal with the planning application on a change of use basis, the main issue is the effect of the hardstanding area and access on the character and appearance of the area. Whilst the Council has referred to use of the land as a caravan site in its reasons for refusal, as I have set out, this is not a matter for my consideration.

Reasons

7. The appeal site is an open field in an elevated position approximately 500 metres west of the village of Hulland Ward.

8. The site is situated to the rear of an existing detached property but is accessed separately via Smith Hall Lane which abuts the western boundary of the site. The field is bounded by mature hedgerows and is only visible intermittently from the main road to the north. From Smith Hall Lane to the west, the appeal site is almost entirely screened from view except at the point of access where there is an open view looking east across the site.

9. The proposal before me comprises the construction of an access road, 5 areas of hardstanding, car parking, works associated with the installation of services for each pitch and the installation of a treatment plant for waste water and ground mounted solar array. The development would be set back from the main road leaving an area of open field between the proposal and the road.

10. The Council considers that the proposal would be clearly visible in its edge of settlement location and therefore harmful to the character and appearance of the rural landscape. I do not consider this to be the case. The site sits in an elevated position and therefore long distance views into the site are severely restricted by the landform. Within close range, the existing hedgerows screen the site from both adjacent roads and from the fields to the east and south. Whilst I acknowledge that the hedgerow on the northern boundary is somewhat lower, views of the site are still relatively intermittent and the potential for further landscaping as suggested by the appellants could further mitigate any impact.

11. Furthermore, the proposed development would be relatively small scale with the individual plots set back from the road. The works applied for would be low to the ground and therefore not unduly prominent within the landscape.

12. I acknowledge that the new access point would be modified to enable suitable visibility splays and whilst the view into the site at this point would be greater than it is currently, it would still be relatively narrow and would not therefore be unduly visually intrusive.
13. My attention has been drawn to two previous decisions within relatively close proximity of the appeal site and whilst each case must be determined upon its own merits, I have reviewed the information available. In relation to Poplars Farm, I concur with the Council that there are no parallels to be made. The Poplars Farm decision has therefore had no bearing on my decision. In relation to the proposed residential development to the north-west of the appeal site, this was a substantially greater proposal and therefore bears little comparison to the proposal that is before me, and so it attracts limited weight in my decision.

14. I therefore conclude that the proposal would not give rise to unacceptable harm to the character and appearance of the area. Accordingly, I do not find conflict with the relevant collective requirements of Policies S4, S9, PDS and EC9 of the Derbyshire Dales Local Plan 2017 which require proposals, including those for new camping, caravanning and holiday chalet developments to not have a prominent and adverse impact on the character and appearance of the immediate or wider landscape.

Other Matters

15. I note that there is a representation from an interested party which relates to the use of the site for caravans and the previous CLPUD application. As set out above, this is not a matter that I can deal with as part of this appeal. The representation also raises concerns about highway safety and in particular visibility acknowledging that at the proposed point of access there is currently a layby that is frequently used for parking. I noted the presence of cars and HGVs parked in the layby during my site visit. However, the installation of an improved access, either via the previously approved access consent or the implementation of the development subject of this appeal, would put in place an access that meets the required visibility splays and would effectively remove the layby. I also note that there have been no highway safety concerns raised by the Highways Authority in this regard.

16. I acknowledge the Council’s first reason for refusal and that it is of limited relevance to my deliberations on the basis that this appeal does not deal with the COU. Hence it does not change my overall conclusions in respect of this appeal.

Conditions

17. Where necessary I have amended the wording of the Council’s suggested conditions, in the interests of precision and clarity, and in order to comply with advice in the Planning Practice Guidance (PPG).

18. Planning permission is granted subject to the standard three-year time limit for commencement of development condition. It is necessary that the development shall be carried out in accordance with the approved plans in the interests of certainty. In the interests of the character and appearance of the area, it is necessary to impose a planning condition relating to hard and soft landscaping, including any proposed lighting. However, these do not need to be separate conditions, so I have combined them into one. Additionally, as the standard three-year time limit is in place for implementation it is not necessary to require the appellants to submit details within 56 days of the permission, accordingly, I have altered the Council’s suggested wording.
19. As previously set out, this appeal deals with construction of an access road, hardstanding and other associated works. Therefore, I have omitted any suggested conditions that relate to the use of the site.

**Conclusion**

20. For the reasons set out above and taking into account all other matters raised, I conclude that the appeal should be allowed, subject to the conditions.

_Julie Hunter_

INSPECTOR
Schedule of Conditions

1) The development hereby permitted shall begin not later than 3 years from the date of this decision.

2) The development hereby permitted shall be carried out in accordance with the following approved plans: 1:1250 Scale Site Location Plan, 1:1000 Proposed Engineering Works at Hulland House, DE6 3EE; Site Plans 01 (03/2019).

3) No above ground construction work shall commence before details of both hard and soft landscape works have been submitted to and approved in writing by the local planning authority. These details shall include:
   i) indications of all existing trees, hedgerows and other vegetation on the land;
   ii) all vegetation to be retained including details of the canopy spread of all trees and hedgerows within the site in relation to the proposed buildings, roads and other works;
   iii) measures for the protection of retained vegetation during the course of development;
   iv) all proposed additional landscaping to include all plant species and their number;
   v) means of enclosure and;
   vi) external lighting;
   vii) an implementation programme.

   The landscaping works shall be carried out in accordance with the approved details before any part of the development is brought into use in accordance with the agreed implementation programme. The completed scheme shall be maintained in accordance with an approved scheme of maintenance.

4) All planting, seeding or turfing comprised in the approved details of landscaping shall be carried out in the first planting and seeding seasons following the completion of the development, and any trees or plants which within a period of 5 years from the completion of the development die, are removed or become seriously damaged or diseased shall be replaced in the next planting season with others of similar size and species.
Appeal Decision

Site visit made on 8 July 2019

by J Hunter BA (Hons) Msc MRTPI

an Inspector appointed by the Secretary of State

Decision date: 31st July 2019

Appeal Ref: APP/P1045/D/19/3227085

The Firs, Rodsley Lane, Yeaveley DE6 2DT

- The appeal is made under section 78 of the Town and Country Planning Act 1990 against a refusal to grant planning permission.
- The appeal is made by Mrs Yeomans against the decision of Derbyshire Dales District Council.
- The application Ref: 19/00129/FUL, dated 4 February 2019, was refused by notice dated 2 April 2019.
- The development proposed is a two storey extension to existing dwelling to provide additional accommodation.

Decision

1. The appeal is dismissed.

Main Issue

2. The main issue is the effect of the proposal on the character and appearance of the host dwelling.

Reasons

3. The appeal property is a modest single storey dwelling located in a generous plot, on the periphery of the village of Yeaveley.

4. The proposal is for a substantial two storey side extension that would provide additional living accommodation. The extension would project approximately 8 metres from the eastern gable, effectively doubling the width of the property. To the front and rear there would be modest projections of around 1 metre and 1.7 metres respectively. The ridge of the proposed extension would be approximately 0.7 metres higher than that of the host property.

5. Policy HC10 of the Derbyshire Dales Local Plan 2017 provides direction in relation to extensions to dwellings and sets out three key criteria. I am satisfied that the proposal would meet criteria a) and c) which seek to control over-development, by ensuring plot sizes are large enough to accommodate proposed extensions and necessary parking provision. However, criteria b) seeks to ensure that extensions are in keeping with the scale and character of the original building, its wider setting and location.

6. The proposed extension would effectively double the size of the host property, which in itself, is not a determining factor. However, the design of the extension and in particular the increased ridge height and scale of the side
projection, would introduce a bulky and incongruous addition that would, due to its scale and design, visually and physically dominate the host dwelling thereby resulting in a discordant juxtaposition of the old and new elements of the enlarged dwelling. Consequently, I find conflict with Policy HC10 as described above, and PD1 which relates specifically to design.

7. Whilst I do sympathise with the appellant’s desire to improve and extend the family home, such matters do not outweigh the harm I have found.

Other Matters

8. The appellant has referred to the approval of extensions and alterations to the Harleys, Rodsley Lane, Yeaveley. However, no details of that development have been provided, and therefore I am unable to assess the similarities between that case and this.

Conclusion

9. For the reasons outlined above and taking into account all other matters raised, the appeal is dismissed.

J. Hunter

INSPECTOR
Appeal Decision

Site visit made on 23 July 2019

by Karen Taylor MSC URP MRTPI
an Inspector appointed by the Secretary of State

Decision date: 29 August 2019

Appeal Ref: APP/P1045/W/19/3226556
Penzer House, Dale Road South, Darley Dale DE4 3BP

- The appeal is made under section 78 of the Town and Country Planning Act 1990 against a refusal to grant outline planning permission.
- The appeal is made by Mr Jonathan Jenkin against the decision of Derbyshire Dales District Council.
- The application Ref 19/00148/OUT, dated 6 February 2019, was refused by notice dated 4 April 2019.
- The development proposed is an outline application for the construction of 2 dwellings and the formation of access and access driveway.

Decision

1. The appeal is dismissed.

Procedural Issues

2. Outline planning permission is sought with access to be considered at this stage, with indicative plans showing the respective position of dwellings in both plots.

3. However, the appellant has provided site layout plans showing the position of the dwellings which taken together with the submitted Arboricultural Impact Assessment, Tree Shading Report, Tree Shading Target Areas and 3D modelling are somewhat more indicative in an attempt to demonstrate that an acceptable detailed scheme could be advanced at the reserved matters stage, and are a basis for the Council’s case. The Design and Access statement forms part of the evidence in this appeal and is fairly specific (paragraph 3.9) as to the siting of the proposed dwellings and to some extent the proposed design. I have therefore taken these into account in so far as establishing whether it would be possible, in principle, to erect 2 dwellings on the site.

4. The appellant has confirmed that the name of the property has changed from “Rotherwood” to “Penzer House”, I have taken this to be the site address.

Main Issue

5. The main issue is the effect of the proposal on the character and appearance of the area, including the implications for the retention and health of protected trees and non-protected trees, on the site.
**Reasons**

6. The appeal site forms part of the private garden of Penzer House, within a residential area of semi and detached dwellings set within substantial plots. To the south of the site is a large office block at a significantly lower level separated by a high boundary wall. To the west of the site is a field leading to open countryside. Access to the site is taken directly from the A6, which currently serves Penzer House. There are two dwellings proposed and identified as ‘Plot 1’ to be located towards the north of the site and ‘Plot 2’ to the south.

7. A number of mature trees lie within the site boundaries which include Poplars, Conifers, Cypress and Limes as well as other small and ornamental trees. There are 14 individual Lime trees within the site protected by a Tree Preservation Order (TPO) to the southern boundary of the site and a further 2 covered by the TPO which adjoin the boundary with the field, notable is (T17) a large mature Lime. The arboricultural report submitted with the application identifies 72 individual trees, a group of 14 limes and shrubs and small trees. The majority being category C and B trees, but some unclassified (U).

8. The development itself would lead to the loss of 9 category U trees and 33 category C trees, which include many overgrown self-sets. Pruning works would also be required for branch clearing, canopy raising and overhanging deadwood with only four new trees proposed as replacements. The removal of these trees within the site would lead to a change in character and appearance of the site with loss of some tree cover and a change to the spacious garden setting of the mature trees. The Lime (T17) would be pruned and the extent of the pruning work would likely be excessive in order to facilitate ‘Plot 2’ and the overall change from the tree works would be perceived as being negative and would harm the character and appearance of the immediate and wider area.

9. As ‘Plot 2’ would be positioned near to the protected Lime trees, and other non-protected trees towards the southern boundary of the site, the root protection area as shown for these protected Lime trees (T16), (043) and (T17), (046) would be in extreme close proximity and I consider this would be of an insufficient distance for suitable protection and would lead to damage of the trees during construction works. Furthermore, (T17) root protection area and its canopy spread would extend across most of the rear garden of the southern plot. This would not be an ideal situation for the future protection of the tree as it would restrict the garden area of occupiers of the dwelling, place future pressure for its removal and would leave the tree vulnerable, causing harm to its health and safety and long term-wellbeing.

10. The appellant’s shadow analysis appraisal of the proposed dwellings as part of the application shows ‘Plot 1’ with limited shading during the summer months due to the building position and tree coverage. However, it indicates that there would be significant shading particularly within the summer months during the daytime hours within the garden area of ‘Plot 2’ and this would worsen during the winter months. I note the appellants comments that some level of tree shade in gardens can be highly desirable and the plot would remain cool in summer and this would be the occupier’s choice where to sit. I consider that the loss of daylight and sunlight caused by the overshadowing would be excessive and not be an acceptable situation for any future occupiers, furthermore this would lead to increased pressure on protected trees to be pruned or even removed.
11. Outline planning permission has been granted for the site. This permission is for the erection of only one dwelling, although indicative site layout plans, the dwelling would be positioned towards the north of the site. While there is a greater theoretical possibility that this development might take place, further permissions are likely to be required from the Council for works to the protected trees given their maturity over time and growth. From the evidence before me, any such works would likely to be a concern for the Council. I am not therefore certain that the effect of the fallback position advanced compared to that which the appeal scheme would cause. Consequently, the fallback position advanced does not outweigh my findings.

12. I therefore conclude that the proposed development would result in significant harm to the character and appearance of the area, including the implications for the retention and health of protected trees and non-protected trees, on the site. The proposal would be contrary to Policies S1, S3, S7, PD1 and PD6 of the Derbyshire Dales Local Plan (2017). Which these policies collectively seek that developments positively contribute towards sustainable development and that they are compatible with the character and appearance of the area; where possible seek to protect, manage and where possible enhance biodiversity; and that development will be refused which results in the loss or deterioration of aged or veteran trees.

13. For the same reasons the proposal would fail to conform with the policy relating to conserving and enhancing the natural environment as set out in section 15 of the Framework, specifically engaging paragraph 170 thereof, which ensures where decisions should enhance the natural and local environment.

Other Matters

14. The Council has referred to other appeal decisions and I would agree with the appellant that the circumstances that applied to the other cases are not directly comparable to those before me. I have, in any case, reached my own conclusions on the appeal proposal on the basis of the evidence before me.

Planning Balance

15. I have found that the harm to the character and appearance of the area identified would be significant. Against this has to be balanced the factors in favour of the proposed development.

16. The provision of two additional dwellings would make a positive contribution to the Council’s housing land supply shortage when weighed in the overall planning balance, albeit that the contribution would be limited due to the quantum of development proposed. There would be a small social benefit in providing the two housing units. Economic advantages would also arise from the construction and occupation of new houses.

17. When assessed against the policies in the Framework taken as a whole the adverse impacts would significantly and demonstrably outweigh the benefits. Therefore, the proposal would not be a sustainable form of development.
Conclusion

18. For the reasons given above, and having regard to all matters raised, I conclude that the appeal should be dismissed.

Karen Taylor

INSPECTOR
Appeal Decision

Site visit made on 6 August 2019

by Diane Cragg  DipTP MRTPI
an Inspector appointed by the Secretary of State

Decision date: 28 August 2019

Appeal Ref: APP/P1045/W/19/3227027
Doone Cottage, Ladygrove Road, Two Dales, Matlock DE4 2FG

- The appeal is made under section 78 of the Town and Country Planning Act 1990 against a refusal to grant planning permission.
- The appeal is made by Mr K Bullen against the decision of Derbyshire Dales District Council.
- The application Ref 19/00168/FUL, dated 12 February 2019, was refused by notice dated 10 April 2019.
- The development proposed is change of use and extension of outbuilding to form dwelling.

Decision

1. The appeal is dismissed.

Main Issue

2. The effect of the proposed development on the character and appearance of the outbuilding and surrounding area.

Reasons

3. The appeal site is a detached outbuilding located in an elevated position behind Doone Cottage and 2 Doone Cottage. The outbuilding is principally a two-storey structure with single storey lean-to. Vehicular access is via a drive adjacent to 2 Doone Cottage that leads to a forecourt area located adjacent to the building’s side elevation.

4. I have been provided with details of the conditional planning permission granted for the change of use of the outbuilding into a dwelling in October 2018 (ref 18/0958/FUL) and the associated drawings. The drawings detail a two bedroomed modest house laid out within the confines of the existing structure and utilising the existing window arrangement.

5. Policies S1, S4, S7 and PD1 of the Adopted Derbyshire Dales Local Plan 7 December 2017 (Local Plan) seek among other things, and in various wording, to ensure that development does not affect the character and appearance of the area. Policy HC8 of the Local Plan states that conversion and/or reuse of existing buildings to residential use from other uses will be permitted where four criteria are met. These are that a) the building or group of buildings are of permanent and substantial construction, b) the form bulk and general design of the existing building or group of buildings make a positive contribution to the character and appearance of its surroundings; c) the building or group of buildings can be converted without extensive alterations, rebuilding or
extension; and d) the conversion does not have a detrimental impact upon the character and appearance of the building or group of buildings and its surroundings.

6. There is general agreement in the submitted evidence that the proposed development meets the requirements of criteria a) and b) of Policy HC8 and I would agree. In terms of criterion c) I note the appellant’s view that the outbuilding could be converted without extensive alterations, rebuild or extension as evidenced by the approved planning permission and this would fulfil the criterion. However, the proposed development must be considered on its own merits and therefore the details in the appeal scheme must comply with criterion c). In this respect I note that the proposed conversion to a three bedroomed house would significantly change the appearance of the southern, northern and western elevations of the outbuilding and alter window openings on the eastern elevation. The drawings confirm that the scheme would require both extensive alterations and extension and therefore I find that the proposal would not accord with criterion c) of Policy HC8.

7. With regard to criterion d) the existing outbuilding is a prominent feature sited above the existing cottage and having a close relationship to it. Its functional design restricted outside space and orientation references its previous employment use. In views from Ladygrove Road and Doone Cottage the northern elevation of the outbuilding is prominent because it is set above road level and above the cottage. The proposed first floor addition would be blank, would reduce the space between the cottage and the outbuilding and increase the outbuildings visibility from the road. With no windows at first floor and reduced space between the outbuildings and the cottage, the new elevation would not sit comfortably adjacent to the cottage garden and in views from the road. Further, the refacing of the southern elevation and the insertion of windows in a domestic arrangement would increase the prominence of the building in the landscape which would be detrimental to its current functional relationship with its surroundings. Although the end elevation would be reduced, I find that overall the changes to the structure would detract from the character and appearance of the group of buildings and the character and appearance of the area. Therefore, I find that the development is contrary to the requirements of criterion d) of Policy HC8.

8. I conclude that the proposed development would detract from the character and appearance of the building and the area and would be contrary to Policies S1, S4, S7, PD1 and HC8 criteria c) and d) of the Adopted Derbyshire Dales Local Plan 7 December 2017.

Other Matters

9. I have noted the appellant’s comments that the approved scheme for the use of the building as a dwelling affects the amenity of Doone Cottage and that the council did not refer to local plan Policy H10. However, these matters do not outweigh the harm I have found to the character and appearance of the area. Further, I have noted the letter in support of the proposed development from the occupier of Doone Cottage, but this factor is no determinative.

Conclusion

10. For the reasons given above and having considered all other matters raised, I conclude that the appeal should be dismissed.
