

Agenda
Session 17 – 09.30 Tuesday 23 May
Matter 14
Review

The purpose of the session is to review the findings of the hearing sessions, to confirm what Main Modifications are proposed to the LP, and discuss how the Examination will proceed hereafter.

1. Based on the examination so far is there likely to be any further significant work that the Council needs to undertake at this stage to ensure a sound LP?
2. What Main Modifications (MMs) (those modifications necessary to make the LP sound) have arisen in the examination process?
3. How should the Schedule of MMs be set out?
4. How should Additional Modifications be distinguished from MMs?
5. On the assumption that the examination can proceed without significant further work what is the process for taking forward the MMs including any need for sustainability appraisal and public consultation?
6. What is the likely timetable for the remainder of the Examination including further consultation and the Inspector's report?
7. What is the role of the Programme Officer after the close of the hearings?
8. Any questions on the process
9. Close of the hearings.
