81255	Longford Hall Long Lane Longford Derbyshire DE6 3DS	<p>Formerly listed as 'The Hall' Country house. Built in the late C16 for the de Longford family, and altered in early C18 by the Coke family, who had inherited in c1620. The house was burnt out in 1942 and restored from c1960 onwards. Red brick with stone and gauged brick dressings, stone quoins, brick plinth with stone copings, first and second floor plain stone bands and moulded stone eaves cornice. Balustraded parapets with plain stone piers, topped by ball finials and urns to the corners, behind which the roof is hidden; having been rebuilt at third storey level after the fire. South front has four large external C16, quoined brick stacks, topped by octagonal brick pots with stone bands and cornices. Originally H-plan, now the western half of north range has been demolished. 15 bay south front, three storeys but top storey now only a facade. South elevation has five groups of three windows, separated by the four stacks. Ground floor has two groups of three glazing bar sashes with stack between to west and single- glazing bar sashes either side of glazed door to two eastern groups, central group has two glazing bar sashes to west and a similar glazed door to east. Above, 15 glazing bar sashes Both these and the ground floor openings are all set in the flush stone surrounds of the original mullioned and transomed windows. Above again 15 blocked early C18 windows with gauged brick, flat arches and double stone keystones. Immediately over, a triglyphed frieze, with decorative circles flanked by flowers on the front of the stacks and to centre of the facade. West gable wall of south range has two storey balustraded C19 bay window, with 3-light cross windows to south, and moulded doorcase, possibly</p>	IISTAR	13/06/1967

		<p>with original open scrolled pediment to top, to north. Above to north, a 2-light-recessed cross window with relieving arch over, and above again, two 2-light recessed mullion windows, now blocked. East facades of north and south ranges have three bays of glazing bar sashes with blocked windows over, similar to south facade. Central single storey wing has been almost completely rebuilt and has three central advanced bays with quoined pilaster strips, flanked by single bays, each with tripartite glazing bar sash in quoined surround. Similar windows to central side bays, whilst central, narrower, bay has only single glazing bar sash. Balustraded parapet over, with stone piers topped by ball finials. Central bay originally had stone porch which has been removed to rear of south range, and has quoined doorcase with pilaster strips to sides, over which is a moulded cornice and scrolled pedimented parapet with ostrich in laurel leaf circle carved to centre, and pilasters to sides. North range, side facades are much altered and the interior a gutted shell. All fenestration glazing bar sashes. Attached to north-east corner is a high, brick C18 garden wall with flat stone copings and large semi-circular headed niches to east side, Interior of house completely rebuilt after the fire, except for C16 panelling in dining room with strapwork frieze to top. Listed for Group Value.</p>		

LB Ref	Address	Description	Grade	Date Listed
81256	Longford Hall Long Lane Longford Derbyshire DE6 3DS	Entrance gates and gatepiers. Early C18, reputedly by Robert Bakewell. Stone and iron, Pair of square gate piers, approximately 12 feet high and rusticated to all sides with moulded cornice and shallow pyramidal coping stone over. To north and south sides of each pier, a plain pilaster with scrolled top, the two central ones taking the fixings for the gates. Fine pair of gates, each with segmental curve up to centre and made up of plain square sectioned rails, tied by band decorated with little knobbed and scrolled finials about a third of the way up, also with an ornate cornice above. To the base is a dograil of arrowheads. The cornice comprises a frieze of strapwork with wavy bands to centre. This pattern is continued in narrow separate panels at the sides on which the gates are hung. Both gates are surmounted by elaborate scrolled overmantles with fleur de lys type finials. Listed for Group Value.	IISTAR	19/07/1985
81257	Longford Hall Long Lane Longford Derbyshire DE6 3DS	Garden house. Early C19. Red brick with stone dressings and quoins, and pyramidal slate roof with overhanging eaves. Single storey. Two bay south elevation has two basket headed windows with raised fillets to edges and raised impost blocks. Three bay east elevation has similar windows to either side of a basket headed flush doorcase with moulded imposts and studded wooden door. All fenestration leaded lights. Included for group value only.	II	19/07/1985

LB Ref	Address	Description	Grade	Date Listed
81258	Longford Farm Long Lane Longford Derbyshire DE6 3DS	<p>Formerly listed as 'Stabling at Hall' Stableblock and coach house. Early C19 with minor C20 alterations. Built for Thomas Coke of Longford Hall. Red brick in Flemish bond, with brick and stone dressings and slate roofs. Stone plinth, continuous first floor stone bands, short stone bands at impost level of all doors and windows, and a plain stone eaves band. U-plan. One and a half storeys and one and a half storeys plus one. West elevation has east elevation of five bays, the centre three advanced and with an extra storey breaking above the roof with dentilled pediment. Centre three bays have two orders of blind semi-circular headed arches, the lower ones with arch at half storey level. Ground floor has semi-circular headed doorcase with plank door flanked by similarly headed case- ment windows. Above three segment headed windows. Single bays with similar blind arches and windows to either side of central block. Above again to centre three semi- circular headed casement windows and in the centre of the pediment a clockface in moulded stone surround. North and south ranges have similar five bay elevations with five semi-circular headed blind arches, the two easternmost under pedimented gables. South elevation of north range has semi-circular headed ground floor openings reading from west to east, window, door, window, door, window. Above five segment headed casements. South elevation similar except the lower openings of the three western bays have been replaced by C20 sliding doors and a hoist platform has been inserted at first floor level to the east. Beyond to east the gabled bays have double plank doors to ground floor. Above five segment headed casements. Eastern walls have pedimented gables and similar arrangement of openings in blind arch. Interior of west and north ranges have groin vaulted ceilings to ground floor supported by Tuscan columns, between which are handsome wooden and ironwork divisions. Doors between the stables have raised and fielded</p>	IISTAR	13/06/1967

81259	Longford Farm Long Lane Longford Derbyshire DE6 3DS	panelling. Listed for Group Value.		
81259	Longford Farm Long Lane Longford Derbyshire DE6 3DS	<p>Formerly listed as 'Barn at hall' Barn with stables incorporated. 1760 with C19 additions and C20 alterations. Built for the Cokes of Longford Hall who were closely related to the Cokes of Holkham Hall. Red brick with brick and stone dressings. Plain tile roofs with crowstepped stone coped gables and moulded kneelers to 1760 barn, plus sawtooth eaves band, and plain stone coped gables to early C19 addition. Six bays and single storey with advanced gabled bays all along south elevation, two tall ones to either end with crowstepped gables and four low early C19 ones to centre, These each have a segment headed blind arch with a segment headed stable door within, except eastern one which has a later window. To either side in tall bays are large segment head arches with stone keystones and impost blocks, that to east now filled by C20 double doors and adjoining C20 windows above, that to west with full height plank doors. Beyond to east, a similar tall bay has segment headed door with plank door to west and inserted window to east, with plank door in raised plain stone surround above. The equivalent western bay has an inserted segment headed doorcase with plank door and a late C19 crowstepped gabled addition to west. Above, a small C19 window in raised stone surround. West gable wall has an elaborate pattern of diamond breathers and '1760 WC' picked out in breathers in the gable. Interior has five braced king post trusses with side struts. C20 additions to west and north. Listed for Group Value.</p>	IISTAR	13/06/1967

LB Ref	Address	Description	Grade	Date Listed
81260	Longford Farm Long Lane Longford Derbyshire DE6 3DS	Cowshed and store room. Mid C19 with later C19 addition and C20 alterations. Red brick with brick dressings. Plain tile roofs with louvred vents to ridges and with stone coped crowstepped gables on moulded kneelers. Double range plan with central corridor and later addition to south. Single storey and four bays long with additional bay to south. North elevation has central segment headed doorcase with stable door and to east a 2-light casement window under segment head. To west C20 window in blocked doorcase. Either corner is rounded with scrolled stone corbel to top, and gables above are pierced with patterned breathers. West elevation has one original serpent headed doorcase and three C20 sliding doors, South elevation has later addition, also with crowstepped gables, which has central semi-circular headed doorcase and similar windows to either side. Above, diamond breathers in gable. Included for group value only.	II	19/07/1985
81261	Longford Hall Long Lane Longford Derbyshire DE6 3DS	Gasworks, now storage shed. Late C19. Red brick with Staffordshire blue brick dressings and slate roof with terracotta coped crowstepped gables. Dentilled eaves to central block and sawtooth eaves to side wings. Three bays with advanced gabled central bay and flanking side bays with single pitched roofs. Central bay as segment headed arch and blocked circular opening above. To either side, but on different levels, are segment headed windows, that to west now blocked. No interior features or machinery survive. Listed for Group Value only.	II	19/07/1985

LB Ref	Address	Description	Grade	Date Listed
81262	Longford Hall Long Lane Longford Derbyshire DE6 3DS	Kitchen garden walls. C18 and C19, with minor C20 alterations. Red brick with occasional vitrified headers and moulded terracotta and stone copings. Square of 12 feet high walls with additional walls to north and east. The original C18 square of walls has pilaster strips approximately every 12 feet along south faces of north and south walls. Eastern wall has '17???' inscribed in vitrified headers. The additional walls to north and east are C19 and the northern one has a C19 peach house to south side. Listed for Group Value.	II	19/07/1985
81263	Nursery Cottage Longford Hall Long Lane Longford Derbyshire DE6 3DS	Gardener's cottage. 1861, Red brick with stone dressings and plain tile roof with two brick diamond set ridge stacks and pierced bargeboards. Three bays, single storey plus attics. South elevation has central gabled bay with 3-light cross window, set under a four-centred Staffordshire blue brick relieving arch, with chamfered stone lintel and sill. To east is an open wooden porch over studded wooden door, and beyond to east is a 2-light casement window, also with chamfered stone lintel and sill and set under a blue brick relieving arch. Similar 3-light window under relieving arch to far west. Above in the gabled bay is a similar 3-light window without an arch over. East gable wall has similar 2-light windows and a datestone in the top of the gable inscribed '1861 E'. All fenestration C19 diamond metal casements or C20 diamond leaded lights. Included for group value only.	II	19/07/1985

LB Ref	Address	Description	Grade	Date Listed
81264	St Chads Church Long Lane Longford Derbyshire	<p>Parish church. C12, early C14, C15 and C16, with various minor restorations throughout C19. Sandstone, rubble to north aisles, ashlar elsewhere. Green slate nave roof, grey slate elsewhere, with stone coped gables and an eastern ridge cross to nave. Deep plinth with moulded copings to tower and chancel, continuous moulded sill band to chancel and embattled parapets with ridgeback copings to nave and tower. Two stage western tower, clerestoried nave with north and south aisles and lower chancel. Tower is C15 and has almost full height stepped angle buttresses to all corners. C19 west door set in cavetto moulded recess has central stone pillar flanked by flat headed doors with four-centred arched Y-traceried windows above, all set within a larger four-centred arch with cusped spandrels under flat hoodmould. Above, tall 3-light C15 panel tracery window set in deep cavetto moulded surround with hoodmould over, South side of tower has small stairlight windows to west side and above central trefoil headed lancet. Above continuous moulded stringcourse and pairs of cusped Y-tracery, louvred bell openings, set in deep cavetto moulded surrounds with continuous hoodmoulds to each face. Moulded stringcourse over with corner and central gargoyles and parapets above. West wall of north aisle is blank but north wall has rubble buttresses to either end and two Y-tracery windows with hoodmoulds to west, western one with cavetto mouldings. To east is a 3-light intersecting tracery window, in deep cavetto moulded recess with hoodmould. Above four C16 2-light mullioned windows with cusped segment headed lights and incised spandrels, set in flat head recesses. Moulded stringcourse above has two large gargoyles, and parapets over. East wall of aisle has blocked, pointed doorcase, now with 1760 memorial plaque over. To east, chancel has three narrow pointed early C14 2-light " windows with different designs of reticulated tracery, set in moulded recesses with hoodmoulds.</p>	I	13/09/1967

LB Ref	Address	Description	Grade	Date Listed
		<p>Between western two is a double gabled stepped buttress. Two similar diagonal buttresses to either side of east window, except top gablets are crocketed. C19 east window has 6-lights with two major mullions and central rose pattern to top. South chancel elevation similar to north elevation except for addition of small moulded t pointed priests door, to west of buttress, with hoodmould and carved head labelstops. South nave aisle has 3-light intersecting tracery window in deep cavetto recess with hoodmould to east, with two wall memorials below to Joseph and Timothy Holme of 1747 and 1757. East and west corners of the aisle have angle buttresses, whilst south facade has &verbar; to east, another 3-light intersecting tracery window in moulded recess, and to west a l chamfered Y-tracery window with hoodmould. Beyond to west is C19 gabled porch with pointed Early English style door. Above in clerestory, four similar windows to those on north elevation. Inner door is early C14 with keel moulded surround. Interior - four bay north arcade has three late C12 bays to west and an early C14 one to east, western ones have stepped semi-circular arches with chamfered hoods on plain columns with j scalloped capitals, that to east has polygonal respond with moulded capital and pointed double chamfered arch. Four bay south arcade has C12 columns but was altered c1300 when double chamfered pointed arches built on moulded capitals. Chancel arch of similar date and style, whilst tower arch is C15, tall with moulded pointed arch and moulded capitals.] Chancel and nave roofs both C19, that to nave in C16 style, Chancel has bead moulded l hoods with carved labelstops and moulded sill band below, to north and south windows. To south side of chancel is a cusped pointed c1300 piscina with similar hood and labels 1 and a triple sedilla of similar date, with cusped four-centred arches, divided by little pilasters and a painted coat of arms below the central seat. Similar C19</p>		

LB Ref	Address	Description	Grade	Date Listed
		<p>piscina to north side of chancel with painted coat of arms in quatrefoil below. Choir stalls j mostly C19, but with re-used medieval poppyheads; nave stalls C19 and plain, as is the I pulpit. Altar rails and pulpit rail are late C19 and a combination of brass and iron-work. Font also C19, but possibly with re-used bowl. Stained glass only in north and south chancel windows where there are small medieval coats of arms in roundels. Fine 1 collection of tombs and memorials, mainly to the Longford and Coke families of Longford 1 Hall. In the chancel, on the north wall, is a C15 tomb niche with pointed moulded arch with wavy cusping to inner edge and effigy of priest below with C19 head. Above, two large wall memorials, that to west to Thomas William Coke, died 1842, by Robert Hall of Derby with bust by Joseph Francis of London, set in gothic aedicule, that to east to his wife Anne Amelia, who died 1844, of white marble with relief carving of angels. To west end of north nave aisle various re-set effigies, including two Sir Nicholas de Longfords, who died c1350 and 1416 respectively, both are dressed in armour with lions under their feet. To east are another pair of c1610, of Sir Nicholas de Longford and his wife. Above on the north wall is marble and slate classical wall memorial with skull and cross bones in segmental pediment to Richard Peacock who died 1764, and to the west is another memorial to Edward Coke, died 1727, a plain shouldered plaque with coat of arms above. To west wall of north aisle is another wall memorial of 1714 to Carolibyrch family. Also several early C18 floor slabs to the Peacock family. South nave aisle has early C15 crocketed ogee tomb niche to east, with crocketed side pilasters and flower decoration to underside of arch, below armoured knight with head on helmet, feet on lion and coat of arms to base. East wall has C13 gravestone with elaborate carved cross, whilst west wall has obelisk wall memorial to Edward Coke, with carved coat of arms to top, dated 1733. Also in south aisle another memorial,</p>

		similar to Richard Peacocks, of 1682. Above chancel arch to either side, two painted coats of arms. Listed for Group Value.		
81265	St Chads Church Long Lane Longford Derbyshire	Cross. C15, restored 1897. Sandstone. Triple stepped large square plinth, topped by tall square base with chamfered corners from half way up, Octagonal stone shaft over, of which top part replaced in 1897. Above, C19 Latin cross with seaweed type foliage ends and to east side a figure of a saint on a carved corbel, under a cusped ogee arch. Listed for Group Value.	II	19/07/1985
81266	St Chads Church Long Lane Longford Derbyshire	Pair of table tombs. 1686 and 1741. Sandstone. Plain table tomb with rusticated corners and fluted pilasters to centre of each long side to north. The north side has brass plaque attached inscribed 'Here lieth the body of William Brown of Nether Thurvaston who departed this life January the 7, 1741 in the 62nd year of his Age'. To south-east is another table tomb with raised and fielded panelled sides. Stone slab over has inscription to sides 'Here lieth the body of William Brown of Nether Thurvaston who departed this life in the year of our Lord 1686 and of his age 19'. Included for group value only.	II	19/07/1985

LB Ref	Address	Description	Grade	Date Listed
81267	St Chads Church Long Lane Longford Derbyshire	Pair of table tombs. Early C18. Sandstone. Table tomb to west has plain base with pilasters to corners and centre of long sides. Inscription to west panel of north side reading 'Here lyeth the body of Joseph Tatlow, who departed this life Feb 25 Anno Dom 1712'. Above, plain slab with moulded sides. Adjacent tomb to east also has a plain base except west end has skeleton in semi-circular headed niche, and east end has angels head, with wings to either side. North side has inscription, but it is too worn to be legible. Included for group value only.	II	19/07/1985
81268	Ice House Longford Hall Long Lane Longford Derbyshire	Icehouse. Early C19. Red brick. Underground domed well with barrel vaulted entrance tunnel to north. Tunnel has hinges for three doors and beyond well is four metres in diameter and over four metres in depth. Well walls are corbelled inwards. Outer skin of cavity wall over the dome has been broken into but the inner wall is intact.	II	19/07/1985

LB Ref	Address	Description	Grade	Date Listed
81269	The Almshouses Longford Hall Long Lane Longford Derbyshire	Row of six almshouse cottages. Early C19. Built for the Cokes of Longford Hall. Red brick with stone dressings and hipped, formerly plain tiled roof, with brick sawtooth eaves band and brick ridge stacks. Single storey, each cottage single bay. Main elevation to west, each cottage with similar doorcase and window surround. The pattern of the elevation from south to north is doorcase with window to north, space beyond then group of window , two adjacent doors and further window beyond. Similar group of two central doors with flanking windows beyond to north. Doorcases are of stone with staff moulded edge and formerly had panelled doors, of which one remains. Windows were also staff moulded to edge with lozenge pattern metal casements, of which only one fragment remains. Inside each cottage has simple stone fireplace and bed recess. All now in ruinous condition.	II	10/04/1980
81270	Longford Grange Long Lane Longford Derbyshire DE6 3AH	Rectory, now house. 1820, enlarged 1840, with minor alterations in 1843. Red brick with brick dressings and stone sills. Hipped slate roof with wide overhanging eaves and brick ridge stacks. Two storeys, four bays by three bays. Main west front has reeded semi-circular off-centre doorcase with raised moulded impost blocks and double glazed panelled doors, set in advanced bay. To south, a glazing bar sash, and to north, two similar windows. Above, four shallower glazing bar sashes. South elevation has three similar glazing bar sashes below and three similar above. Each set of windows is advanced with blind recesses between, Interior has basket headed arch in hall and curving stick baluster staircase, lit by ceiling light.	II	19/07/1985

LB Ref	Address	Description	Grade	Date Listed
81271	Longford Mill Longford Lane Longford Derbyshire DE6 3DT	Watermill, now house. 1857, converted 1972. Red brick with brick and stone dressings, plain tile roofs with overhanging eaves and brick gable stacks to rear pitch of the roof. Two storeys plus attics with lower two storey wing to west, three bays plus single bay wing to west. Central basket headed doorcase with C20 stable door, and to either side two storeyed, four-centred arched blind niches with 3-light basket headed casements to ground floor with moulded brick sills and diamond leaded lights. Above, two similar windows and a central C20 glazing bar fixed light under basket headed arch. Above to Centre, an inset stone datestone inscribed 'HG 1857' and a hoist platform on scrolled cast iron brackets, with plain railings round. Gabled attic dormer over with pendant and below, double plank doors. Attached to west, lower section has central 3-light basket headed, diamond leaded, light casement and above a small hayloft opening with plank door and basket arch. To front of mill, below ground level, is a brick retaining wall, with small segmental arch to west to take the water under the mill, and large segmental arch to east. Iron wheel is now placed against the east gable wall of the mill, having been removed from the interior. Interior has no machinery left. Rear of mill has original sluice gate to west side and attached to west side a stone retaining wall for the mill pond, which continues to west until it reaches a stone weir, to the east side of which is a sluice gate with separate channel. Listed for Group Value.	II	27/07/1969

LB Ref	Address	Description	Grade	Date Listed
81272	Bridge Over River South West Of Longford Mill Longford Lane Longford Derbyshire	Road bridge. 1842, built for Thomas Coke, Earl of Leicester. Red brick with stone dressings. Wide basket headed arch with raised stone voussoirs and central keystone. To either side smaller stiled semi-circular headed arches, also with raised stone voussoirs. Brick spandrels with plain raised stone band above and brick parapets, topped by flat stone copings. Walls curve upwards in a shallow curve to centre and finish to each end in a brick pier with large coping stone. Silver Jubilee plaque on north wall to road side, also a plaque, inscribed 'These county bridges were erected at the sole expense of Thomas, William, Earl of Leicester AD MDCCC XL11'. Listed for Group Value.	II	19/07/1985
81273	Bridge Over Mill Tail Of Longford Mill Longford Lane Longford Derbyshire	Road bridge. 1842, built for Thomas Coke, Earl of Leicester. Red brick with stone dressings. Central stiled semi-circular arch with raised stone voussoirs and keystone on stone piers. To either side, similar smaller arches. Brick spandrels and raised plain stone band with brick parapets, topped by cambered stone copings over. Brick piers to either end with large coping stones. One of a pair of bridges built by the Earl of Leicester. Listed for Group Value.	II	19/07/1985

LB Ref	Address	Description	Grade	Date Listed
81274	The Cheese Factory Longford Lane Longford Derbyshire DE6 3DT	<p>Cheese factory, now workshop and store. 1870 with extensive later additions. Built by a consortium of Derbyshire landowners under guidance of Cornelius Schermanhorn, an American cheesemaker. Weatherboarded timber framing, with red brick additions and slate roofs with overhanging eaves. Single storey and four bays with brick additions to rear and to east side. North elevation has raised brick platform with steel girders supporting weatherboarded canopy above, to west end of which is metal plaque inscribed 'The first cheese factory built in England, opened May 4th 1870, under the management of Cornelius Schermanhorn' Behind the canopy the wall has central double wooden sliding doors and to west a plank door. To east end is another large wooden sliding door. Beyond to east is a later advanced brick addition with fixed glazed window. All other sides are blank. Interior mostly gone, See article in Country Life, Vol 133, No 3440 February 6th 1963 by L B Powell 'England's first cheese factory'. Listed for historical interest as the first purpose-built cheese factory in Britain. Listed for Group Value.</p>	II	19/07/1985

LB Ref	Address	Description	Grade	Date Listed
81275	Chapel House Farm Thurvaston Lane Longford Derbyshire DE6 3DX	Farmhouse. Late C17 with C19 addition and C20 alterations. Box timber framing with painted brick nogging on rendered plinth and brick addition with applied timber studding to west elevation. Thatched roof with brick ridge and gable end stack to south, and coped gable to south. Two storeys, three bays, originally a lobby entrance plan, C19 addition to south West elevation has C20 thatched gabled porch with glazed sides over original doorcase. To north, C20 casement window, probably in original position, and to south two adjoining casement windows. Above, C20 casement window to north and glazing bar casement to south. Interior has large inglenook fireplaces to each original room and upstairs one original plank door with wooden latch and large box frame timber chimney breast.	II	19/07/1985
81276	Marsh Farm Thurvaston Lane Longford Derbyshire DE6 3DU	Farmhouse and attached outbuilding. 1707 and late C18 with minor later alterations. Red brick on stone plinth with brick dressings, plain tile roof with brick gable stacks, that to north external. Two storeys and four bays with attached single bay outbuilding to north. Tall three bay house to south has C20 window to centre, probably in former doorcase. To north, 3-light glazing bar casement under segment head, and to south, similar 2-light window. Above, central tall single light stair window with 3-light glazing bar casement under segment head to north and to south similar 2-light window set considerably higher up than southern one. Attached to north lower two storey wing with panelled door under segment head to south. C20 casement window under segment head to north with casement window above. Beyond to north, outbuilding with plank door and inserted window. Above the door, a datestone inscribed 'John Holland 1707'. Interior of house has inglenook fireplace to north room and wooden winder staircase.	II	19/07/1985
