

## MATLOCK BRIDGE ARTICLE 4 (1) DIRECTION

### Recommended Colours for Paint Finish to Architectural Elements

The Matlock Bridge Article 4 (1) Direction seeks to control all painting to previously unpainted brick and stonework and to encourage the use of more appropriate colours for all other painted surfaces including shop fronts, windows, doors, decorative joinery elements, decorative ironwork and rainwater goods.

The Council therefore recommends the use of specific paint colours for historic properties in the Matlock Bridge Conservation Area. The majority of buildings in the area date from the late 19<sup>th</sup>/early 20<sup>th</sup> centuries and the Table below indicates a range of paint colours, available in the British Standard 4800 Range, that are considered appropriate for use on 'Victorian' properties.
